

HOROSCOPE

TUESDAY, JUNE 15, 1920.

THIS is a lucky day, according to astrology, for Neptune and Jupiter rule strongly for good. It is a rule said to be fortunate for speculation or financial ventures that offer large rewards.

Trade and commerce are well directed at this time, and rumors of possible panics or money stringency should be watched suspiciously, since trickery and treachery are foreshadowed.

There is an encouraging sign for travel on the water but many will journey across seas only to meet many disappointments and large expenses.

Clearer vision on the part of the people who look beneath the surface of things is predicted. Strong reactions of opinion are prognosticated. Early in the morning Saturn is in evil place, making for some sort of trouble for farmers, who will be instrumental in making a startling result in the election returns of more than one state.

Theater should benefit at this time, even though the summer is at hand for the planetary direction seems to promise extraordinary interest in all things dramatic. Danger of mining troubles and a coal strike again are foreseen. This should be a lucky wedding.

A Line O' Cheer
Each Day O' The Year

By JOHN KENDRICK BANGS.

THE CRICKET.
This cricket sings
His little song
Of simple things
The whole day long.

He has not half
The gifts I hold—
His life's but chaff.
If truth were told.

And yet he sounds
His note of cheer
In constant rounds
Of measures clear.

And all his soul
He freely gives
In joyous toll
Because he lives.

Day in the scene that it seems to lead to material success.

Growth of radical ideas and the spread of the most progressive ideas will be marked in the next few months.

Reputedly those who read the stars have warned the world that a new order of things must be recognized and they now declare that the United States is in a state of intellectual revolution that will be powerful in its effects.

The leveling of all ranks and the readjustment of society is to be as marked in this country as abroad, although manifested in other ways.

Persons whose birth date it is may expect changes in the coming year, especially if born in the morning.

Children born on this day may have many vicissitudes during life and should be carefully prepared for their struggle with human problems.

They are likely to be talented and very sensitive. Copyright, 1920, by the McClure Newspaper Syndicate.

HEARING NOV. 15 ON TEXAS OKLAHOMA BOUNDARY ROW

Austin, Texas, June 14.—Hearing of the Texas-Oklahoma boundary controversy in the supreme court of the United States has been set for November 15, announced assistant attorneys general W. A. Keeling and C. W. Taylor, who have returned from Washington where they had been in connection with this litigation.

Two legal questions will be considered at this hearing, the first being as to whether the Greer county case is res adjudicata, that is, whether the boundary as determined in this case shall govern in reaching a conclusion in the Texas-Oklahoma case, and the second is, if the Greer county case is not res adjudicata, what was the boundary fixed by the treaty of 1819 between the United States and Spain.

Hogwallow Locals

THE Tickville town marshal mounted his bicycle this morning and made a bold but unsuccessful attempt to arrest a stranger for speeding in a big auto. He says if the man hadn't went so fast he sure would of overtook him.

Salem Barlow, our widely known banjo-picker, was heard rehearsing in the corn crib today. Fletch Henstap says Salem's banjo either is badly out of tune or else he is tackling some classy music.

Poke Eastley is back after sitting on a jury in the Cali Ribs neighborhood. Poke is in big demand as a juror as he never has an opinion on anything.
